**INSTALLATION INSTRUCTION**

**ACCIAIO®**

**BX950 single**

**COMPACT FLUORESCENT**

- 120V/277V, 347V or 480V Input
- WET LOCATION / IP66
- Durable and Efficient Design

---

**IMPORTANT SAFEGUARDS**

**WARNING △**

No User serviceable parts. Refer service to a qualified service technician.

Read instructions prior to installing and/or operating this device.

Installation should be performed by a licensed electrician/installer in accordance with local codes.

**IMPORTANT SAFETY**

When using electrical equipment, basic safety precautions should always be followed including the following:

**READ AND FOLLOW ALL SAFETY INSTRUCTIONS**

- Do not let power cords touch hot surfaces.
- Do not mount near gas or electric heaters.
- Equipment should be mounted in locations and at heights where unauthorized personnel will not readily subject it to tampering.
- The use of accessory equipment not recommended by Beghelli Inc., may cause an unsafe condition, and will void the warranty.
- Do not use this equipment for other than its intended purpose.
- Servicing of this equipment should be performed by qualified service personnel.

**SAVE THESE INSTRUCTIONS!**

**INSTALLATION**

1. Make sure the main power is off.
2. Attach and secure ACCIAIO® mounting brackets to surface. Use appropriate fasteners.
3. Bring the fixture up and snap mounting bracket onto housing side channels.
4. Connect labeled wires to main power.

**RELAMPING**

1. Loosen stainless steel lock screw from feed end cap
2. Release feed, die-cast end cap
3. Slide out rail system to access the ballast and lamps.
4. Disengage and remove lamps from sockets

Reverse all steps to close and secure ACCIAIO®
